## **1TRUEID**

XIII

**1trueid** 

# XXXXX 1trueid

An application of SAIT expertise is represented by 1TrueID, a start-up whose aim is to verify items' authenticity through identification technology and providing a unique customer engagement.

#### ALESSANDRO GHERARDI PROJECT GENESIS

Alessandro Gherardi asked Sait to esteem the introduction of NFC technology to identify univocally the single shirt "tailor-made".

The electronic identification of the single shirt, textures and customizations created during the production phase, would allow the direct post-sale communication with end customer and would help resellers and dealers with reorder operations.

#### ALESSANDRO GHERARDI

# ALESSANDRO GHERARDI

**High Quality Shirts Manufacturer** 

Andrea Gobbi

During the production phase an NFC 1TrueID tag is sewn under the brand label of the shirt.

### THE PROJECT Tag Encoding

The 1TrueID® NFC tag is initialised with unique single-shirt data.

This operation is performed directly on the finished product, through NFC writer.

### THE PROJECT Item Packaging and Delivery

After the ironing, the shirt is placed in the box and ready to be delivered.

Together with the shipping documents, an SMS and EMAIL are sent automatically to the retailer, showing the tracking number and the delivery date of the package, so that the retailer can inform the customer.

### THE PROJECT Customer Features – Alessandro Gherardi App

With Alessandro Gheradi App the customer has access to its shirt production details putting the smartphone near the label of the item (with the NFC tag).

# THE PROJECT Customer Features - Alessandro Gherardi App

The customer can always check his measures, selected fabrics, customization of collars, cuffs, embroidery, initials and make new changes. He can also be connected to the Alessandro Gherardi website, for the e-commerce and Made to Measure services.

Thanks to Alessanro Gherardi App, the customer can watch the video of the production of his specific shirt, having access to the Alessandro Gherardi manufacturing world.
